COMMERCIAL.

HONOLULE, JANUARY, 6, 1875. The table of experts, prepared by Colonel Allen, Collector General of Customs, will be found table. From it, the reader will learn that the total deport of sugar for 1874 amounted or not till rounds. The amount experted added to the tion, which is nor less than half a million counts, gives a total of over 25,000,000 pounds as the yield of

The same table places the expert of paddy and rice ly gaining both with the Chinese, and the natives, who begin to prefer it to pos. The home consumption cannot have been less that 4:0,000 pounds during the past year, giving an aggregate product of over two millions for the year 1874. The production of wool, pulse, bides and gentekins, all show a gain over the provious year; while the total value of our do-mistic expects is less than for 1872. This is owing chiefly to tion of sugar shipped abroad. The total value

placed at \$1,055,055. eve, by an official notice that the customs standard of the pound sterling has been thougad from \$4.54 to \$4.87. This is designed to bring the valuation of sterling invo-and accounts so near as possible to American coin wi s the established book currency. This order does not affect the commercial value of the pound sterling, which remain ummer, at \$4.90, at which rate the sor ersign is taken at the government treasury, the bank and

One dates from San Francisco are to the 13th ult. We serve no change in the quotations of island produce. Respecting the holiday trade we note the following:

Our fancy trade at the basaars, jewifty stores, etc., was sever more active than now. Money is very altendant and existly superficient for lateries, presents, etc. The exchanges have in purchases by the young if both series is something sunchable and to sign than to a picthory of case in many norther. The holiday season promises to be a juyous season possess on the coast. In our Australian files, we note that fat cattle continue

mudition, cowe at £1 less. Would it not pay to ship a cargo her from some of our outer ranches, where they can be had at \$2 on an average? The back Jane A. Falkinburg sailed on the 4th for Port-

hand, Oregon, with a full carge of island produce.

The schooner Varuna, which unrived on the 30th, from San Francisco, brought an assorted cargo. She will return soon to the above port.

Burk Norths Nucleay is loading for Portland, and will leav

Foreign Commercial Summary.

INCREASE IN AMERICAN TORRAGE.—In 1872 the whole I her of vessels for commerce, of all kinds, owned in the United States was \$1,684; tormage; 4,468,046. In 1874: Wholeman bur of vessels, 31,922; tomonge, 4,550,883. Increase in a year: Vensels, 230; tomonge, 127,627 tons. Of the vessels adont in 1874 there are propelled by sails, 17,226; by steam, 2 sts; surigged, 7,803; surigged and not reported, 2,936 tonings is 1,116,425; saffing tonings, 2,257,154 The whole toursage increase is less than three per cent for the

The whole burn Java arrived last evening with a full cargo of Oil and flow. This wessel, we believe, completes the list of whalers expected to arrive here this seases, and a complete summary of their cargoes will be of interest:

BECALEY—On Toesday morning. Dec. 29th, at the residence of B. R. Bavidson, Esq., Mary Ann Tressillian, aged 3 years, daughter of the late Br. Tressillian and widow of the late Wm. Beckley.

NOTES OF THE WEEK.

The Tenedos salled for Kalina Saturday las 'longitude service," and arrived here again last

"Mechanic" Engine Company No. 2 holds

ts regular monthly meeting this (Wednesday) evening, at 73 (P. M. The trial of Count Von Arnim commenced at Berlin on the 7th of December, but up to the

latest advices no result had transpired. The Tuscarora Minstrels had a fair bonse or active domaid. Bullock sell at £7 is £7:15, according to Saturday night, and gave a really attractive minstrel entertainment. That amateurs abould perform so well is really surprising.

> The papers by the incoming mall, giving the ccedings at Washington, during the royal visit, will be very interesting. The mail by the Murray will be due Saturday next.

137 The Advertiser asks why we did not notice the Bethel in our account of the proceedings of Christmas? Simply because its doors were not opened to religious services on Christmas eve or day, to a re-

The schooner Varues, which arrived from an Francisco on the 31st, is a finely modeled vessel, and made a very good passage down, for the light weather she had. She reminds us of the "Kate Lee," though not quite so large. We understand

Bark D. C. Murray sailed hence for San Francisco, November 27, but had not arrived over up to Dec. 13,-16 days out. She probably arrived soon after that date, and left about the 23d, in which event she is fourteen days out to day, and due be. tween this and Saturday.

A VALUABLE INVENTION.-A Scotch engineer, Mr. John Cullen, has lately perfected a valuable invention, after years of study and experiment, designed to prevent boiler explosions. It is simple, yet most efficient, and can be applied to any boiler. As soon as the patent is secured in Loudon, the public will learn more about It.

late telegram that Commander William G. Cost United States Navy, who has been stationed at Washlugton Navy Yard some years, has become insane, and was recently removed to the Government Insane Hospital. While serving as Lucutenant, he visited this port several times, and his many friends will regret to hear of his mental derangement.

RATHER SMALL -A San Francisco paper grumbles at the voting of \$2,000 by the city authorities to entertain King Kalukaua. Bah! Way our German citizens spent that sum in entertaining a Hawalian King here not long ago, and our Chinese residents spent \$2,500 for the same purpose! Talk about my when you have a genuine live King to er tertain! Pehaw!

WHEN Kalakama was visiting at Mare Island Navy Yard, the Vallejo Chronicle tells, cigars were handed round among his party, but the King remarked that it was "not a question of cigars, but of a match." Thereupon a youngster who was standing near drew a lucifer from his vest pocket, ignited on the seat of his trowsers, and held it up to the Royal eight as nonchalantly as if it had been that of another boy of his own dimensions. That is the surest way to light a match, they say.

STEAMERS.-We do not look for the steamer Cyphrenes, which left Sydney Dec. 19 via Auckland, before Sunday the 10th inst., as she is the slowest boat in the line. On her last trip from Sydney to this port direct, she was 22 days. The voyage via Auckland is three days longer than from Sydney

-The Mikado, which is the fastest boat in the line, will be due here from San Francisco on Monday or Tuesday.

Boston papers are jealous because New Bedford has got the start of the Hub in inviting King Kalakana to visit that city. They shouldn't teel so, for New Bedford, like a spoiled child, is so accustomed to blubbering, that she does not wait for others to tell her when to speak out. But she has such a good natured and generous, way of sundwiching us islanders with her sperm and right-whales, that we are delighted that she is the first city in America to offer royal honors to our King. Long live the gallant Oil-Princes of New Bedford!

MUSICALE AT MILLS' SEMINARY .- A most enjoyable entertaloment was furnished by the young ladies of Mills' Seminary last evening, (Dec 12.) the friends of that institution assembling in large numbers. The programme was entirely musical, consisting of singing, plano solos and duets and operatic selecns. The artistic performances on the piano of Miss Fox, Miss Spencer and Misses Anthony, Caen and Augustine, were especially noticable and appreclated. Miss Cobb sang very sweetly "A Song of Birds," and Miss Nixon rendered a selection from "Verdi" in such superb style that she was loudly applanded. These musicals, we think, should be given oftener than they are. They furnish recreation and are refining and improving in many ways. - Alta, Dec. 3d.

CAPTAIN G. L. TUPMAN .- We learn from Profes sor Forbes' "Transit of Venus," that to Captain Tupman, the British Government has entrusted the entire business of fitting out the several expeditions to observe the transit of Venus. He is "head of the entire enterprise, and is responsible through the Astronomer Royal to the government for every

- In connection with the above, we may add, that mention is made, among the scientific notes in Harper's Monthly for December, of a catalogue of meteors observed by Captain Tupman, which has been published with the catalogues of Mesars. Gregg and Schmidt, forming altogether, a nearly complete list of all known showers of meteors.

WAILUKU ENGLISH SCHOOL -On Monday, Decem ber 91st, the scholars of the above school gave an entertainment in the above school-room to a very crowded audience. The performance consisted of two note of Shakespeare's "King Henry VI," part songs being sung, and recitations between the scenes. The whole of the entertainment gave great satisfection. The capital manner in which the voitthful performers assumed the characters alloted to them, appeared to strike every one with astonish ment. The Rev. J. Bridger in the course of a few remerks, said it gave him great pleasure to see so many kind friends present, and regretted that owing to the crowded state of the room many more were upable to gain admittance. He also said that the credit of getting up such a pleasant evening's en

tertainment should be given to Mr. Ditcham the

forward to go through their different parts in so sat-

master, who had worked hard in bringing the boys

The January term of the Supreme Cour, opened on Monday with mative cases. The calendar

for this term is quite lengthy. During the present week of prayer, meetings are held every day at 11 o'clock a. M. at the Bethel, and every evening at Fort Street Church.

The earthquake which we noticed as having felt also at Hilo, where, Mr. Coan writes, it was the severest shock that has occurred for many months. It was also quite severe on Maui.

New DEDGSTORE -Dr. G. Trousseau has recently fitted up and opened a drugstore on the corner of Fort and Merchant streets,-the store formerly oc enpled by Mr. Henck. It will remind old reside of the time when Dr. Hunter dispensed pills and drugs in the same building, some twenty-five years Fran .- The German Club House, located in Emma street, was totally destroyed by fire on the 30th ult.

matches. The building belonged to Mr. Jas. Love, and the furniture to the Club. Total loss of about HER Majesty Queen Dowager Emma's birthday ecurred on Saturday, the 2d day of January, an was observed by her many friends, who took the opportunity to call and congratulate her on the event. A generous feast (hum) was prepared, and

ladging from the crowds which attended, and the

time on that day. On New Year's day, Mr. Herbert of the Ha waiisn Hotel entertained his guests and unmerous friends at a barberne lunch, where we noticed among the attractions, a whole sheep, and if not a whole ox, very nearly a whole one, which came from Major Boyd's ranch. The barbecue roast is said to have had its origin in the West Indies. In the Southern States, this mode of rossting an ox, sheep or hog is very common, and when skilfully done, is unsur passed by the most accomplished French cookery.

PHILLIP PHILLIPS.—By a notice in the last num ber of the Friend, we observe that this world-renowned Sunday school vocalist, who has traveled through England and parts of Europe, attracting steamer Mikado, on the 12th inst., and has expressed a willingness to give an entertainment, for which purpose the Fort Street Church will be opened to him. The avails of the concert will be given to the support of the Sailor's Home in this city.

VERY Coot. - The weather has been remarkably cool and pleasant for the past two weeks, during which the mercury, on several nights, has been down to about 60°. On Tuesday morning, January 5, it fell to 52", in this city, as reported to us by Mr. S. N. Castle, and 5434, as noticed by Mr. C. J. Lyons. Others in various localities observed it at 55" to 56". The wind was light from the north during the night, and the sky perfectly clear. The coldest that we have ever known it before in Honoluin, was during a northwest rain storm, in February 1862. On the 14th the thermometer indicated 55', and on the morning of the 15th, it stood at 53°, at 6 A. M., and 57 at 11 o'clock A. M. If the Weather, in more northern latitudes, has been as cold, in proportion to locality, we shall expect to hear of some marvellously-cold records.

EARTHQUAKES ABBOAD .- It is consoling to find BEEF, MUITON AND GOAT TALLOW WANTED. that Madame Pele shows no distinction in her favors, and is equally ready to shake up the Knickerbockers of New York, and the wooden nutmeg manufacturers of Connecticut, as the depizens of her Pacific Ocean realm. Here is the account:

New YORK, December 11th,-The evening Post publishes the details of a distinct abock of earthquake felt at half-past 10 last night in the upper part of the city. All along the Hudson river, up the har bor and at Stamford. Conn., familles were roused from their beds, and lamps, globes, etc., broken. At Mount Vernon the whole town turned out in alarm. Several occupants of the botel were thrown out of bed. The proprietors were frightened and rung a general alarm. In Rockland muchadamare was done in broken ceilings and glass-ware, and many people rushed into the streets in their night clothes. Many persons are seriously indisposed through fear.

FLITNER'S TRANSIT INSTRUMENT.-In the year 1845 Mr. E. H. Boardman, watchmaker, established work of rating chronometers. The instrument, imported for the purpose, was expensive, and the arrangements most ample. Subsequently it became the property of D. N. Filtner, who has been so sucduring the past quarter of a century and more in Honolulu. Mr. Filtner's long experience as a practical astronomer and observer enabled him to make observations during the late "transit of Venus, which have attracted the attention of Capt, Tupman, and which this gentleman has done our townsman the honor of duly recognizing. This fact should not pass without its impression upon the minds of shipmasters and navigators in the Pacific, who desire to keep their chronometers in good repair and properly rated. In this connection we would add that the longitude and latitude, which has been authority with Mr. Filtner during his residence in Honolulu, was obtained by Professor C. S. Lyman, now of Yale College, who visited Honolule in 1846 shortly after Mr. Boardman established his ransit instrument. Professor Lyman employed this instrument, or rather be finally adjusted this instrument accurately to the meridian of Honolulu. and determined the istitude and longitude by observing the culmination of several handred stars. We well remember the many days and weeks tha Prof. Lyman was employed in determining the latitude and longitude, as follows:

Longitude west 157° 48° 48"—Latlinde north 21° 18° 23° t 12 o'clock M., Honelniu. This instrument is situated on Union street near Hotel, and is mounted upon a foundation based upon the coral rock and made as solid as cement and grapite could make it. The little building sheltering the same was designed by B. A.S. Wood, Esq., for many years superintendent of government works and designed to be modeled after a Grecian temple. Small as it may be, the plans and drawings were sketched with as much labor and principling as any building ever erected on the Hawaiian Island

New South Wales Twe New South Wales Parliament was opened of the 3rd of November by his Excellency Sir Hercules Robinson in person. A general election being near at hand, no great or important changes were indicated in his speech. The Government will proceed with the measures postponed from last session, particularly the Upper House Reform Bill, the Criminal Law been felt here on Tuesday morning, Dec. 29, was | Consolidation, and the Electoral bills, and pass the estimates, leaving the new Parliment to deal with the Amendment Land Bill, the Education and Municipal ities Acts. The revenue was stated to be satisfactory and the Government proposes to ask Parliament to set apart a portion of the revenue annually to reduce the public debt. The speech expresses satisfaction that Fiji has been annexed to Great Britain, and that the California mail service has been rearranged with New Zealand. Upon the address in reply being moved. Mr. Robertson moved an amendment expressing want of confidence in the Ministry. He condemned the Government for not having called Parliament together earlier, and for having secepted Mr. Hall as a The cause of the fire is unknown, but it is supposed to have been the work of a child playing with contractor for the California mail service, and for their vague proposal to amend the land laws. The amendment was negatived by 27 votes to 11, and the Upper House passed the address in reply.

NEW ADVERTISEMENTS.
